### **Support letter**

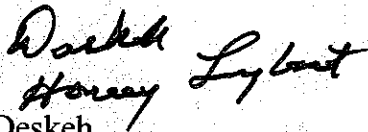

My name is Harvey Longboat, my title for the Iroquois Confederacy is Deskeh and I am a Chief of the traditional Iroquois People known as the Haudenosaunee.

I write this letter to show my interest and concern for Danny Beaton's work in filming traditional Iroquois Elders voicing their concern for peace and respect of our Sacred Mother Earth.

At this time I have a copy of the film "Mohawk Wisdom Keepers" and I agree with the five Mohawk Elders in their concern for the health of our children's future.

I strongly urge all people to respect and honour the five Mohawk Elders in this documentary film as it is addressing the crisis that the earth is experiencing.

I urge responsible people of all nations to join together with the five Mohawk Elders in their concern to continue the struggle of their ancestors to protect native culture for our children's future.
